For Sprint: 0

List the goals your team set for this sprint. It is best to name specific features or bug fixes; use the exact issue titles from the GitHub issue tracker. *(Add more rows if you need)*

Issue Title	Assigned To	Status (Complete, Incomplete, Not Started)	Comments (e.g., reasons why feature is incomplete)
UWP prototype	Aaron Hanson	Complete	
ASP prototype	Steven Carriger	Complete	
DB setup and integration	Steven Kight	Complete	

For each team member, please provide (via copy/paste) 2-3 examples of evidence they are actively contributing to the development of the team (beyond just coding, etc.). These could include:

- A git commit message (please include the commit ID and date/time)
- A comment on an issue in the issue tracker (please include the issue name)
- A bug issue they opened (please include the issue name)
- Message(s) from Slack, Discord, etc.

The examples must be substantive, e.g.,

- explaining why a change was made
- providing detail as to how to reproduce a bug
- suggest options to the team for how to solve a particular problem

Team Member	Example Communication(s)
Aaron Hanson	"Alright I have the pdf and video working on uwp fully and I am working on making it look usable."
Steven Carr...	"Ok so I just committed to my branch an ASP.NET project that was essentially what we talked and did last night Steven, except it actually runs and works for me"
Steven Kight	"Okay, all good, no rush, just wanted to see, I have everything in one solution and have ASP.Net, Db and React communicating, working on the UWP now"

List your team's goals for the next sprint. *(Add more rows if you need)*
