

Sprint Retrospective Report

Date Submitted:

Team: 2

Report Created By: Aaron Hanson

For Sprint: 1

List the goals your team set for this sprint. It is best to name specific features or bug fixes; use the exact issue titles from the GitHub issue tracker. (Add more rows if you need)

Issue Title	Assigned To	Status (Complete, Incomplete, Not Started)	Comments (e.g., reasons why feature is incomplete)
Add Note, login, and Upload source on desktop	Aaron	Incomplete	Problems with database at the end of the sprint.
Add Note, login, and Upload source on desktop	Steven C	Incomplete	Problems with database at the end of sprint.
Add Note, login, and upload source api	Steven K	Incomplete	

For each team member, please provide (via copy/paste) 2-3 examples of evidence they are actively contributing to the development of the team (beyond just coding, etc.). These could include:

- A git commit message (please include the commit ID and date/time)
- A comment on an issue in the issue tracker (please include the issue name)
- A bug issue they opened (please include the issue name)
- Message(s) from Slack, Discord, etc.

The examples must be substantive, e.g.,

- explaining why a change was made
- providing detail as to how to reproduce a bug
- suggest options to the team for how to solve a particular problem

Team Member	Example Communication(s)
Aaron	I have all the pages for the desktop designed and most functionality present. I really need the dB communication stuff by tomorrow morning so I have enough time to put it all together. I am going to add the front-end hashing but I also need to add the dB stored proc for login with the hashing as well.
Steven Carr...	Sounds good, I'd like to get the functionality done for logins and all with the API on my end that way when I start readjusting the web pages I can easily plug them all in and get it connected easily as I go to ensure the flow of the program is working as

	intended because right now half of the stuff I made is probably not going to work haha
Steven Kight	I just got it to display a users sources, so now the Web and desktop at least do that I am having to remove the beige colors for now cause both my laptop and desktop are displaying in a way that I can't read it so I have to remove it for me to test, I can add it back if we want later

List your team's goals for the next sprint. *(Add more rows if you need)*

Priority	Issue Title	Assigned To
1	Finish Desktop for sprint 1	Aaron
1	Finish web for sprint 1	Steven C
1	Finish api for sprint 1	Steven K
2	Add support for embedded video	Steven K
3	Add support for uploading video (optional)	Any
