

Sprint Retrospective Report

Date Submitted: 2/20/2024

Team: 2

Report Created By: Aaron Hanson

For Sprint: 2

List the goals your team set for this sprint. It is best to name specific features or bug fixes; use the exact issue titles from the GitHub issue tracker. (Add more rows if you need)

Issue Title	Assigned To	Status (Complete, Incomplete, Not Started)	Comments (e.g., reasons why feature is incomplete)
Upload Source on desktop	Aaron Hanson	Complete	
Upload Source on Web	Steven Carriger	Complete	
View Source Desktop	Aaron Hanson	Complete	
Upload Source Api	Aaron Hanson	Complete	
Upload Source Metadata	Steven Kight	Complete	
Redesign UI	Steven Kight	Complete	
Enter notes on Web	Steven Carriger	Complete	
Enter notes on Desktop	Aaron and Steven Kight	Complete	

For each team member, please provide (via copy/paste) 2-3 examples of evidence they are actively contributing to the development of the team (beyond just coding, etc.). These could include:

- A git commit message (please include the commit ID and date/time)
- A comment on an issue in the issue tracker (please include the issue name)
- A bug issue they opened (please include the issue name)
- Message(s) from Slack, Discord, etc.

The examples must be substantive, e.g.,

- explaining why a change was made
- providing detail as to how to reproduce a bug
- suggest options to the team for how to solve a particular problem

Team Member	Example Communication(s)
Aaron Hanson	I finished up the use case scenarios and I am going to add them to github. All the desktop is missing is adding a source with metadata and testing because we dont know how to do it right yet. @Nitric If you want I can just make another page for the source upload instead of a dialog if you want more time to figure how to test. I just

	<p>finished everything I was planning on doing we have everything but metadata in our functionality.</p> <p>I had to make a pr to upload the usecase scenarios to main if someone wants to approve it</p>
Steven Kight	<p>Okay, if you don't mind updating code docs and checking my code, I will adjust styling and we can be done with functionality for this sprint, I will be up in the morning to update wireframes and DB diagrams if y'all don't mind getting the other documentation we need that would be great</p> <p>and if you need me to mess with anything Aaron I can in the morning</p>
Steven Carr...	<p>Ok, is there anything in the issues of the demo 1 that needs to be corrected still? I know Steven mentioned Corley might pull us from UWP and move us to something else for testing. But I am not sure what else we haven't addressed, I know he said Documentation wasn't submitted the code coverage report is in the wrong directory and I need to work on my Commit messages following the expected style</p> <p>Also, sorry for not getting this done earlier, I ran into issues with it Thursday and didn't feel good yesterday so I made sure to do this first thing in the morning for us</p>

List your team's goals for the next sprint. *(Add more rows if you need)*

Priority	Issue Title	Assigned To
1	View Hosted or embedded video (web and desktop)	Aaron
1	upload hosted or embedded video(web and desktop)	Steven Carriger
1	Create account(web and desktop)	Steven Kight
2	Add tags to notes	Steven Kight
